About

A young, dedicated professional, looking to further my skills and knowledge. I currently hold a Master's degree in cybersecurity from Western Governors University. I work at Medicaid, managing their infrastructure. I am in charge of creating and deploying the automated transfers with the GoAnywhere MFT system, and of configuring the sftp server.

Experience

SFTP ENGINEER AND VIRTUALIZATION ANALYST, ALABAMA MEDICAID AGENCY — AUGUST, 2021-PRESENT

The primary duties of this job entitled the creation of automated scripts to transfer files using the GO-Anywhere MFT systems. I was also in charge of helping to migrate DHCP reservations, audit AD users, and modify the page file's on VMs using power-shell scripts.

ROLES AND RESPONSIBILITIES

- My primary duties consist of creating automated file transfers, and managing user accounts for our MFT software.

- I use Service Now to process tickets when new projects or account creations are requested.

- Managing the sFTP server and MFT software.

Education

Western Governors University

      Masters in Cyber Security and Information Assurance — Salt Lake City, Utah — 2021
